Secrets of Your Cells: Discovering Your Body's Inner Intelligence By Sondra Barrett

"It's rare that a medically trained scientist dares to venture into the mystical world of our cells and biology, but Dr. Barrett has both the courage and insights to do just that. By combining her scientifically trained mind with the wisdom of her heart, she takes us on an adventure of perceiving the inner workings of our bodies in a new way. This book will serve anyone curious about how our physical lives are related to this vast universe that we occupy." ?Leigh Fortson, author of *Embrace, Release, Heal: An Empowering Guide to Talking About, Thinking About, and Treating Cancer*

"In *Secrets of Your Cells*, biochemist Sondra Barrett puts us in touch with the incredible beauty and organization of the cells of the human body as she translates the small-scale life of cells into large-scale lessons for living. This is the work of someone with a genuine reverence for the sacredness of life." ?Larry Dossey, MD, author of *Healing Words, Reinventing Medicine, and The Power of Premonitions*

"Sondra has the gift of a scientist's mind wedded to an artist's heart." ?Eli Jaxon-Bear, author of *From Fixation to Freedom: The Enneagram of Liberation*.

A guiding principle of the spiritual journey is to look within. Biochemist Sondra Barrett has done just that?and discovered that our cells offer us invaluable wisdom for transformation, relationships, and healing. With *Secrets of Your Cells*, this scientist and mind-body teacher takes you on a provocative journey into our inner universe. Exploring the cell's astonishing architecture, intelligence, and ability to function harmoniously, this book offers practical exercises for applying the lessons of our cells to live well and thrive. Join Dr. Barrett to learn:

- Practical guidance for engaging cellular intelligence in everyday life through our thoughts, choices, and actions
- Inner wisdom embedded in our cells about sanctuary, letting go, and being in the present moment
- What our cells can teach us about communication, cooperation, and purpose

- How the anatomy of our cells responds to energy, movement, and internal tension
- Cells and molecules as sacred art, as revealed by Dr. Barrett's fascinating color photographs of the inner and outer world

"Our cells are more than just fortuitous arrangements of chemicals," explains Dr. Barrett. "They are a community of trillions of sentient entities cooperating to create a sanctuary for the human soul." Drawing on the insights from shamanic practices, energy medicine, and the wisdom of our body's fundamental building blocks, *Secrets of Your Cells* is a thoroughly researched and accessible resource for putting cutting-edge biology into action.

"Sondra has the gift of a scientist's mind wedded to an artist's heart." -Eli Jaxon-Bear, author of *From Fixation to Freedom: The Enneagram of Liberation*.

"**Secrets of Your Cells** is a fascinatingly informative book. Since I believe that cellular health is a key to whole body health, and cell dysfunction comes from both deficiency and toxicity, I am very interested in learning all I can about my trillions of magnificent cells."

--Elson M. Haas, MD, author of **Staying Healthy with Nutrition** and **The Detox Diet**

"Barrett's unique combination of imagination and scientific scholarship takes the reader far deeper than a simple directive to "Look within." The connection between cells and consciousness in *Secrets* is undeniably revealing.

This is the compelling metaphor unveiled in *Secrets of Your Cells*. Author Sondra Barrett is a biochemist whose research sits at the crossroads of science and spirituality, where she explores how cell structure provides a common "spiritual architecture" for values, rituals, and art across cultures. " - *Spirituality & Health Magazine, May/June 2013*

About the Author

PhD Sondra Barrett

Sondra Barrett, PhD, is a medical scientist and teacher who earned her degree in biochemistry from the University of Illinois Medical School followed by post-doctoral training in immunology and hematology at the University of California Medical School. Her cutting-edge research on normalizing the behavior of cancer cells led her to bridge medical science and healing strategies for children and adults with life-threatening illnesses. She delivers programs throughout the United States. A student of qigong, shamanism, and sensory education for more than 25 years, Sondra is an award-winning photographer and author of *Wine's Hidden Beauty*. For more, visit sondrabarrett.com.

Users Review

From reader reviews:

David Anthony:

In this 21st one hundred year, people become competitive in every single way. By being competitive today,

people have do something to make these survives, being in the middle of often the crowded place and notice through surrounding. One thing that oftentimes many people have underestimated this for a while is reading. Sure, by reading a e-book your ability to survive improve then having chance to stay than other is high. In your case who want to start reading a book, we give you that Secrets of Your Cells: Discovering Your Body's Inner Intelligence book as beginner and daily reading book. Why, because this book is greater than just a book.

Jane Abraham:

This Secrets of Your Cells: Discovering Your Body's Inner Intelligence tend to be reliable for you who want to certainly be a successful person, why. The key reason why of this Secrets of Your Cells: Discovering Your Body's Inner Intelligence can be on the list of great books you must have will be giving you more than just simple studying food but feed a person with information that probably will shock your previous knowledge. This book is usually handy, you can bring it all over the place and whenever your conditions both in e-book and printed versions. Beside that this Secrets of Your Cells: Discovering Your Body's Inner Intelligence forcing you to have an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we all know it useful in your day task. So , let's have it and revel in reading.

Edna Miller:

Spent a free time for you to be fun activity to complete! A lot of people spent their free time with their family, or their very own friends. Usually they carrying out activity like watching television, going to beach, or picnic in the park. They actually doing same every week. Do you feel it? Would you like to something different to fill your free time/ holiday? Can be reading a book might be option to fill your totally free time/ holiday. The first thing that you'll ask may be what kinds of e-book that you should read. If you want to consider look for book, may be the book untitled Secrets of Your Cells: Discovering Your Body's Inner Intelligence can be great book to read. May be it is usually best activity to you.

Pamela Jernigan:

As a pupil exactly feel bored to help reading. If their teacher expected them to go to the library or to make summary for some publication, they are complained. Just tiny students that has reading's spirit or real their interest. They just do what the professor want, like asked to the library. They go to right now there but nothing reading significantly. Any students feel that reading is not important, boring in addition to can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Secrets of Your Cells: Discovering Your Body's Inner Intelligence can make you feel more interested to read.
