**Contemporary Health Studies: An Introduction** By Louise Warwick-Booth, Ruth Cross, Diane Lowcock

*Contemporary Health Studies: An Introduction* provides a lively and accessible introduction to the current issues and key debates in this area. It contains a strong, up-to-date, global, social-scientific focus examining the human experience of health particularly emphasizing its social, political and environmental dimensions.

The book's diverse content is usefully divided into three main parts. Part one sets the scene looking closely at the definition of health studies and the debates surrounding the concept of health. Part two explores different disciplines underpinning Health Studies including chapters such as sociology, psychology, anthropology and health promotion. Part three of the book explores the determinants of health and contains chapters on individual factors influencing health, policy influences on health, public health and the global context of health. Each chapter:

- Opens with a list of key learning outcomes;
- Contains topical learning tasks;
- Poses questions for reflection and debate;
- Provides an in-depth case study to summarise the key arguments made.

Carefully chosen tables, figures and photographs bring the text to life, whilst the companion web-site offers additional learning resources for both students and lecturers alike.

*Contemporary Health Studies: An Introduction* is an essential guide for undergraduate health students written by three authors who have a wealth of teaching experience in this subject area. Their book will inspire readers to consider the human experience of health within contemporary global society as it is mediated by individual, societal and global contexts.

### **Editorial Review**

#### Review

'An excellent introduction to the many facets of health studies ... I recommend this book to all health professionals, students of health studies, public health and behavioural sciences.'

*Nursing Times*

'An accessible introduction to today's contemporary health issues.'

*Nursing Standard, 4 star review*

'An excellent text which will provide the student of health studies, public health and health promotion with fundamental knowledge and understanding of a wide range of important disciplinary and theoretical issues. The content and structure of the book and the chapters within it are highly appropriate and it will prove an invaluable key resource on a wide range of health related courses.'

**Angela Scriven, Brunel University**

'A key companion to understanding and debating today's contemporary health issues in both learning and practical settings. Engaging and accessible, this topical textbook is an essential buy for students and health professionals interested in health and its many dimensions.'

**Nova Corcoran, University of Glamorgan**

**Charlotte Neville:**

As a scholar exactly feel bored in order to reading. If their teacher expected them to go to the library or make summary for some publication, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the educator want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that reading is not important, boring and also can't see colorful images on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Contemporary Health Studies: An Introduction can make you experience more interested to read.
