Contracts and the Legal Environment for Engineers and Architects By Joseph Bockrath, Fredric Plotnick

The seventh edition of **Contracts and the Legal Environment for Engineers and Architects** has been written for students in the engineering and architecture fields to teach the basic principles of the law and a ready reference for practicing design professionals. This edition has been completely updated in recognition of the dynamic changes in the law in recent years.

The text has been entirely reordered and several new chapters and chapter sections have been added. The material in this seventh edition has been reorganized and expanded into seven parts: **Part One:** Basic principles of the law and court systems in both the United States and globally. **Part Two:** Basic principles of contracts. **Part Three:** Relationships of individuals and society focusing upon such areas as agency, partnerships, corporations, insurance and governmental regulations. **Part Four:** Basic principles of tort law including concepts of negligence and product liability. **Part Five:** Basic principles of property ranging from real property to intellectual property. **Part Six:** Impact to the daily practice of a design professional involved in a construction project. **Part Seven:** The role of the design professional in litigation.

Editorial Review

About the Author

Fredric Plotnick is an Adjunct Professor of Engineering in the departments of Engineering Management, Civil Engineering, and Construction Management at Drexel University's Philadelphia Pennsylvania Campus, where he has taught Engineering Law, Contracts Specifications and Law, Techniques of Project Controls, Project Scheduling and several other subjects since 1979. He has also maintained a consulting practice, Engineering and Property Management Consultants, Inc., since 1983, having previously worked for several contracting, consulting and engineering design firms. Professor Plotnick is a graduate of Drexel University College of Engineering, having a BSCE in Soil and Foundation Engineering and an MSCE in Construction Management, followed by a JD from Widener University School of Law, and returning to Drexel for his PhD in Civil Engineering.

Joseph Bockrath is the R. Gordon Kean Professor of Law at the Louisiana State University Law Center, where he has taught Contracts, Constitutional Law, and several other subjects since 1976. Prior to his arrival at LSU he was an Assistant Professor of Marine Studies at the University of Delaware. Professor Bockrath is a graduate of Hastings College of Law of the University of California in San Francisco.

Users Review

From reader reviews:

Wilma Hines:

As people who live in the modest era should be change about what going on or info even knowledge to make these individuals keep up with the era that is always change and progress. Melvin Groth:

Contracts and the Legal Environment for Engineers and Architects can be one of your beginning books that are good idea. We all recommend that straight away because this guide has good vocabulary that could increase your knowledge in vocabulary, easy to understand, bit entertaining but still delivering the information. The article author giving his/her effort to get every word into enjoyment arrangement in writing Contracts and the Legal Environment for Engineers and Architects but doesn't forget the main point, giving the reader the hottest along with based confirm resource facts that maybe you can be one of it. This great information may drawn you into completely new stage of crucial pondering.

Timothy Payne:

As a university student exactly feel bored in order to reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just very little students that has reading's heart or real their hobby. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading critically. Any students feel that looking at is not important, boring and also can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this Contracts and the Legal Environment for Engineers and Architects can make you sense more interested to read.
