Editorial Review

From the Back Cover

Revised, updated, and expanded, this comprehensive new edition of the most definitive reference in architecture brings you the broadest possible coverage of the language of architecture and construction. Special care has been taken to include the latest terms from preservation, new technologies, techniques, materials, and trends. This classic dictionary now features 25,000 definitions, 2,200 illustrations, enhanced page design for easier reading, and higher quality paper stock for better illustration reproduction and greater durability. Prepared by a renowned architectural editor in association with 52 expert contributors and incorporating the work of many standards groups, the book presents clear, concise definitions of terms in nearly 80 working areas.

About the Author

CYRIL M. HARRIS, one of the world's leading authorities on shock, vibration, and noise control, currently lectures at Columbia University where he is the Charles Batchelor Professor Emeritus of Electrical Engineering and Professor Emeritus of Architecture. Dr. Harris has received many honors for his scientific and engineering achievements, including membership in both the National Academy of Sciences and the National Academy of Engineering. He has been the recipient of the Gold Medal and the Sabine Medal of the Acoustical Society of America, the Franklin Medal of the Franklin Institute, the Gold Medal of the Audio Engineering Society, and the A.I.A. Medal of the American Institute of Architects.

He received his Ph.D. degree in Physics from M.I.T. and has been awarded honorary doctorates by Northwestern University and the New Jersey Institute of Technology. Among books written or edited by Dr. Harris are the following McGraw-Hill publications: HANDBOOK OF ACOUSTICAL MEASUREMENTS AND NOISE CONTROL, Third Edition (1991); NOISE CONTROL IN BUILDINGS (1994); DICTIONARY OF ARCHITECTURE AND CONSTRUCTION, Third Edition (2000); and HANDBOOK OF UTILITIES AND SERVICES FOR BUILDINGS (1990).

Users Review

From reader reviews:

Patricia Nebeker:

In other case, little people like to read book Dictionary of Architecture and Construction. You can choose the best book if you'd prefer reading a book. Provided that we know about how is important a book Dictionary of Architecture and Construction. You can add knowledge and of course you can around the world by way of a book. Absolutely right, mainly because from book you can understand everything! From your country until foreign or abroad you will be known. About simple thing until wonderful thing you may know that. In this era, we can open a book or maybe searching by internet device. It is called e-book. You can use it when you feel bored to go to the library. Let's study.

Keith Cochran:

The book Dictionary of Architecture and Construction make one feel enjoy for your spare time. You can utilize to make your capable considerably more increase. Book can to get your best friend when you getting

pressure or having big problem using your subject. If you can make reading through a book Dictionary of Architecture and Construction to become your habit, you can get far more advantages, like add your personal capable, increase your knowledge about several or all subjects. You may know everything if you like available and read a publication Dictionary of Architecture and Construction. Kinds of book are a lot of. It means that, science reserve or encyclopedia or some others. So , how do you think about this book?

Stephen Adams:

Playing with family in a very park, coming to see the ocean world or hanging out with close friends is thing that usually you have done when you have spare time, subsequently why you don't try factor that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition info. Even you love Dictionary of Architecture and Construction, you are able to enjoy both. It is great combination right, you still would like to miss it? What kind of hang type is it? Oh can occur its mind hangout people. What? Still don't obtain it, oh come on its referred to as reading friends.

Hector Medlin:

Do you like reading a guide? Confuse to looking for your chosen book? Or your book seemed to be rare? Why so many problem for the book? But virtually any people feel that they enjoy regarding reading. Some people likes reading through, not only science book and also novel and Dictionary of Architecture and Construction or perhaps others sources were given understanding for you. After you know how the truly amazing a book, you feel wish to read more and more. Science book was created for teacher or perhaps students especially. Those textbooks are helping them to bring their knowledge. In different case, beside science e-book, any other book likes Dictionary of Architecture and Construction to make your spare time considerably more colorful. Many types of book like here.
