Editorial Review

Review

"*Exploring Ethics* is better than other anthologies for several reasons; it offers a good combination of original/classic works and pieces that are summaries of views. It also stays at the introductory level and covers the topics that I teach. I rate this book a '10' because of its selections and its price."--Deborah White, *University of Massachusetts Lowell*

"The readings are quite accessible (and blessedly short!); students should have NO trouble finding their way through them without extra help. The book's price is right, it is easily accessible to all students (including ESL students), and it covers the right material."--Rebecca S. Hertsgaard, *College of the Desert*

"The editing is quite good: selections are pared down, in many cases, to their core arguments. The self-scoring quizzes are an excellent resource."--Thomas Atchison, *Metropolitan State University*
