Foot and Ankle Disorders: Tricks of the Trade By Frederick G. Lippert, Sigvard T. Hansen

In this quick, easy-to-access reference, a top team of orthopedic surgeons share their tricks and techniques for performing a wide range of foot and ankle surgeries. This concise book discusses 35 different procedures for the foot and ankle, covering everything from hind foot alignment and hallux varus to metatarsal phalangeal fusion and adult flatfoot syndrome. For each operation, you'll find notes, clear and simplified drawings, tips, and pitfalls, all designed to make even the most challenging surgery seem easy.

Special benefits:

- Simplifies all concepts with succinct, to-the-point text
- Annotated drawings allow you to grasp the procedure at a glance
- Pitfalls describe typical problems and strategies for avoiding them
- Guidelines help explain procedures to patients and obtain informed consent

Here is the valuable text all orthopedists, podiatrists, and residents who perform foot and ankle procedures need to expand their surgical armamentarium.

Editorial Review

Review

'Chapters on calcaneal talar fractures are very well done...organization of the book is deceptively simple...delivers several important messages...that young surgeons can use to maximize their care of patients...highly [recommended].' --Doody's Notes
A helpful resource for the physical therapist who wishes to learn more about the surgical management of these disorders or who desires a manual with diagrams that are simple enough for patient education. It would be...useful to an orthopedic or podiatric surgeon who might find it to be an excellent pocket reference or review guide as well as a patient education tool.--Physical Therapy

Kelsey Dehart:

Is it an individual who having spare time subsequently spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something totally new? This Foot and Ankle Disorders: Tricks of the Trade can be the response, oh how comes? A book you know. You are thus out of date, spending your free time by reading in this new era is common not a nerd activity. So what these books have than the others?

Jessica Jackson:

As a scholar exactly feel bored to reading. If their teacher inquired them to go to the library or even make summary for some reserve, they are complained. Just little students that has reading's spirit or real their interest. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading very seriously. Any students feel that reading through is not important, boring as well as can't see colorful pictures on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Foot and Ankle Disorders: Tricks of the Trade can make you really feel more interested to read.
