**The Oxford Handbook of Translation Studies (Oxford Handbooks)** From Oxford University Press

This book covers the history of the theory and practice of translation from Cicero to the digital age. It examines all major processes of translation, offers critical accounts of current research, and compares competing theoretical perspectives. It considers all kinds of translation from sacred texts, poetry, fiction, and sign language to remote, consecutive, and simultaneous interpretation in legal, diplomatic, and commercial contexts. The two opening parts of the book consider the history of translation theory and central concepts in the study of translation. Parts III, IV, and V cover the written text, the interpretation of speech and sign language, and the role of translation in mixed-mode and multimedia contexts. Part VI considers the contributions and challenges of information technology including the uses and limitations of machine technology. The final part looks at the teaching and training of translators and interpreters. The book concludes with a comprehensive bibliography and index.

Designed as a state-of-the-art reference and practical guide the book will serve the needs of all those involved in translation, whether as professional translators and interpreters, researchers in translation studies and allied disciplines, or as undergraduate or postgraduate students. This is, in sum, an essential work in a vibrant, fast-moving, and fascinating field.

### Editorial Review

#### Review

the main strengths of the handbook are its wide coverage of topics and good balance between theoretical and practical aspects of the field, providing researchers in MT and related areas a very comprehensive introduction to translation studies. Lucia Specia, Machine Translation

#### About the Author

**Kirsten Malmkjær** is Chair of Translation Studies in the School of Modern Languages at the University of Leicester. She is General Editor of the journal, *Target: International Journal of Translation Studies* (John Benjamins), and the author of *Linguistics and the Language of Translation* (EUP 2005).
