Hyperpolitics: An Interactive Dictionary of Political Science Concepts By Mauro Calise, Theodore J. Lowi

Fifteen years in the making, *Hyperpolitics* is an interactive dictionary offering a wholly original approach for understanding and working with the most central concepts in political science. Designed and authored by two of the discipline's most distinguished scholars, its purpose is to provide its readers with fresh critical insights about what informs these political concepts, as well as a method by which readers—and especially students—can unpack and reconstruct them on their own.

International in scope, *Hyperpolitics* draws upon a global vocabulary in order to turn complex ideas into an innovative teaching aid. Its companion open access website (www.hyperpolitics.net) has already been widely acknowledged in the fields of education and political science and will continue to serve as a formidable hub for the book's audience. Much more than a dictionary and enhanced by dynamic graphics, *Hyperpolitics* introduces an ingenious means of understanding complicated concepts that will be an invaluable tool for scholars and students alike.

Editorial Review

Review

"All of this is wonderful, exciting, imaginative, and generous. Hyperpolitics is a great service to many disciplines, not just political science. As an intellectual history of political science, this book is unequalled. This is a pioneering reinvention of the dictionary." - Richard M. Valelly, Swarthmore College"

About the Author

Mauro Calise is professor of political science at the University of Naples Federico II. The author of several books (www.maurocalise.it), he is also the president of the Italian Political Science Association and director of the IPSA Web Portal for Electronic Sources. **Theodore J. Lowi** is the John L. Senior Professor of American Institutions at Cornell University. A former president of the American Political Science Association and of the International Political Science Association, he is the author of *The End of Liberalism*.

Users Review

From reader reviews:

Thomas Smith:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their down time with their family, or their own friends.
