Editorial Review

About the Author

Guido Schmutz Guido Schmutz works as a Technology Manager for Service-Oriented Architectures (SOA), Application Integration, and Open Source-based development at Trivadis, a leading independent IT service company operating in Germany, Austria, and Switzerland. He has worked in the software industry for over 20 years, most of which was spent in software development and architecting. He has led a wide range of enterprise-level application development and application integration projects in a variety of industries. His current focus is on SOA and Application Integration projects using the Oracle SOA platform. Guido is also an Oracle ACE Director for Fusion Middleware and SOA. Guido is co-author of the German books *Spring 2.0 im Einsatz*, *Architecture Blueprints* and *Integration Architecture Blueprints* and he is a regular speaker at International Oracle and Java conferences.

Peter Welkenbach Peter Welkenbach works as a consultant, senior architect, and trainer in the fields of requirement engineering, object-oriented methodologies, software engineering, and quality management. He has more than 20 years experience of designing and implementing complex information systems for banks, automotive manufacturers, and pharmaceutical companies. For 10 years he has been a technology evangelist for Java technology and the use of the corresponding frameworks in customer projects. Peter Welkenbach is a course developer, author of numerous publications, and speaker at JAX and international Oracle conferences. He has been using Spring in numerous customer projects since it first appeared in summer 2003. His current focus is on enterprise architecture and lean architecture methodologies. In his current projects he works as an enterprise architect for a well known German retailer.

Daniel Liebhart Daniel Liebhart has over 20 years of experience in the information technology field, which has culminated in a broad technical and business know-how. For 10 years he has been working in different management positions, leading IT professional services or product development. His broad know-how comprises the engineering, realization, and operation of complex and internationally operated IT systems for the Telecommunication, Finance, Logistic, and Chemical industries, as well as for public services. He has authored three books for Hanser Publications, is a passionate computer science engineer, possesses several awards, and has worked for Trivadis, a leading independent IT service company operating in Germany, Austria, and Switzerland. He works as an assistant professor at the University of Applied Science in Zurich.

Users Review

From reader reviews:

Randall Yang:

Within other case, little individuals like to read book *Service Oriented Architecture: An Integration Blueprint (Professional Expertise Distilled)*. You can choose the best book if you love reading a book. As long as we know about how is important any book *Service Oriented Architecture: An Integration Blueprint (Professional Expertise Distilled)*. You can add knowledge and of course you can around the world by way of a book. Absolutely right, since from book you can recognize everything! From your country right up until foreign or abroad you may be known. About simple factor until wonderful thing you are able to know that. In this era, we can easily open a book or searching by internet unit. It is called e-book. You can utilize it when you feel fed up to go to the library. Let's examine.

Lawrence Howe:

Why? Because this Service Oriented Architecture: An Integration Blueprint (Professional Expertise Distilled) is an unordinary book that the inside of the reserve waiting for you to snap the idea but latter it will distress you with the secret the item inside. Reading this book beside it was fantastic author who else write the book in such wonderful way makes the content inside of easier to understand, entertaining way but still convey the meaning entirely. So , it is good for you because of not hesitating having this any more or you going to regret it. This book will give you a lot of gains than the other book get such as help improving your expertise and your critical thinking way. So , still want to hold up having that book? If I were you I will go to the publication store hurriedly.

Sheila Nathan:

This Service Oriented Architecture: An Integration Blueprint (Professional Expertise Distilled) is great book for you because the content which can be full of information for you who also always deal with world and also have to make decision every minute. This particular book reveal it facts accurately using great plan word or we can declare no rambling sentences within it. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only provides straight forward sentences but hard core information with beautiful delivering sentences. Having Service Oriented Architecture: An Integration Blueprint (Professional Expertise Distilled) in your hand like getting the world in your arm, data in it is not ridiculous just one. We can say that no guide that offer you world within ten or fifteen second right but this reserve already do that. So , this can be good reading book. Hello Mr. and Mrs. occupied do you still doubt which?

Melinda Miller:

You could spend your free time to see this book this e-book. This Service Oriented Architecture: An Integration Blueprint (Professional Expertise Distilled) is simple to deliver you can read it in the park your car, in the beach, train in addition to soon. If you did not have much space to bring the actual printed book, you can buy the actual e-book. It is make you easier to read it. You can save the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.
