White Identity: Racial Consciousness in the 21st Century By Jared Taylor

In this brilliant and wide-ranging survey of the relevant science and history, Jared Taylor shows that racial consciousness is intrinsic and that efforts to remake human nature are doomed to fail. He shows that in modern America, people of all races prefer the company of people of their own race; that racial diversity is more often a source of conflict than of strength; and that multiculturalism is changing the United States profoundly and to the detriment of most white people.
