Computer Networking: A Top-Down Approach (4th Edition)

By James F. Kurose, Keith W. Ross

Computer Networking: A Top-Down Approach (4th Edition) By James F. Kurose, Keith W. Ross

Building on the successful top-down approach of previous editions, the Fourth Edition of **Computer Networking** continues with an early emphasis on application-layer paradigms and application programming interfaces, encouraging a hands-on experience with protocols and networking concepts. With this edition, Kurose and Ross bring the issues of network security to the forefront, along with integration of the most current and relevant networking technologies.

Computer Networks and the Internet; Application Layer; Transport Layer; The Network Layer; The Link Layer and Local Area Networks; Wireless and Mobile Networks; Multimedia Networking; Security in Computer Networks; Network Management.

For all readers interested in computer networking technologies.

Editorial Review

About the Author
James Kurose teaches at the University of Massachusetts at Amherst. His research interests include network protocols and architecture, network measurement, sensor networks, multimedia communication, and modeling and performance evaluation. He received his PhD from Columbia University.

Keith Ross is a professor of computer science at Polytechnic University. He has worked in peer-to-peer networking, Internet measurement, video streaming, Web caching, multi-service loss networks, content distribution networks, voice over IP, optimization, queuing theory, optimal control of queues, and Markov decision processes. Professor Ross received his PhD in Computer and Control Engineering from the University of Michigan.

Users Review

From reader reviews:

Judith Lucas:

This Computer Networking: A Top-Down Approach (4th Edition) book is not really ordinary book, you have it then the world is in your hands. The benefit you receive by reading this book is information inside this guide incredible fresh, you will get facts which is getting deeper anyone read a lot of information you will get. This specific Computer Networking: A Top-Down Approach (4th Edition) without we know teach the one who reading it become critical in considering and analyzing. Don't always be worry Computer Networking: A Top-Down Approach (4th Edition) can bring when you are and not make your carrier space or bookshelves' grow to be full because you can have it in your lovely laptop even cellphone. This Computer Networking: A Top-Down Approach (4th Edition) having great arrangement in word and also layout, so you will not truly feel uninterested in reading.

Dorothy Delarosa:

Do you certainly one of people who can't read satisfying if the sentence chained in the straightway, hold on guys this particular aren't like that. This Computer Networking: A Top-Down Approach (4th Edition) book is readable by you who hate the straight word style. You will find the information here are arrange for enjoyable reading through experience without leaving possibly decrease the knowledge that want to supply to you. The writer of Computer Networking: A Top-Down Approach (4th Edition) content conveys objective easily to understand by many individuals. The printed and e-book are not different in the written content but it just different such as it. So , do you continue to thinking Computer Networking: A Top-Down Approach (4th Edition) is not loveable to be your top listing reading book?

Tracy Painter:

A lot of people always spent their particular free time to vacation or perhaps go to the outside with them

family members or their friend. Are you aware? Many a lot of people spent many people free time just watching TV, or maybe playing video games all day long. If you want to try to find a new activity here is look different you can read a new book. It is really fun to suit your needs. If you enjoy the book which you read you can spent all day long to reading a publication. The book Computer Networking: A Top-Down Approach (4th Edition) it is rather good to read. There are a lot of individuals who recommended this book. These were enjoying reading this book. Should you did not have enough space to develop this book you can buy typically the e-book. You can m0ore simply to read this book from your smart phone. The price is not too expensive but this book possesses high quality.

Carmine Caulfield:

In this period of time globalization it is important to someone to get information. The information will make anyone to understand the condition of the world. The condition of the world makes the information quicker to share. You can find a lot of personal references to get information example: internet, magazine, book, and soon. You can see that now, a lot of publisher this print many kinds of book. The book that recommended to you personally is Computer Networking: A Top-Down Approach (4th Edition) this e-book consist a lot of the information of the condition of this world now. That book was represented so why is the world has grown up. The dialect styles that writer value to explain it is easy to understand. The writer made some analysis when he makes this book. Honestly, that is why this book appropriate all of you.
