Vampire Empire - The Greyfriar By Clay Griffith, Susan Griffith

Audie Award Nominee, Paranormal, 2013

1870. A time known as The Great Killing. The vampire clans arose and slaughtered humanity with unprecedented carnage in the northern parts of the world. Millions perished; millions were turned into herd animals. The great industrialized civilizations of the world were left in ruin. A remnant fled south to the safety of the ever present heat which was intolerable to vampires. There, blending with the local peoples, they rebuilt their societies founded on human ingenuity, steam and iron. The year now is 2020. The Equatorian Empire, descendant of the British Empire, stretches from Alexandria to Cape Town. Princess Adele, quick witted, combat trained and heir to throne is set to wed the scion of the American Republic, a man she has never met. Their marriage will cement an alliance between the nations and set the stage for war against the vampires in an attempt to retake the north. Prepared to do her duty she finds herself caught in a web of political intrigue and physical danger.

The Greyfriar, a legendary vampire hunter from the north, appears ready to rescue the Princess and return her home-but he harbors secrets of his own. As the power struggle between the vampires and humans increase Adele and The Greyfriar are caught in the middle, on the run, being hunted, and fighting for not just their own lives, but for future of humanity.
