Editorial Review

Review

""This is a crash course in speculation on the stock market. It focuses on proven strategies for making money, whether the market is up or down. This book shows you how to develop a trading system, and presents some little known rules of the game. It will teach you the essentials of stock market speculation, from how to find the right stockbroker, to how to make money selling short and things in between. The pitfalls of specuating in stocks are also addressed.""--Technical Analysis of Stocks and Commodities
