Critical Care Patient Transport, Principles & Practice, 5th Edition By Richard A. Patterson, Christina D. Patterson

We are an APPROVED FP-C REVIEW COURSE PROVIDER, and this textbook is used by our nationally recognized lecturers who present Review Courses for Certified Flight Registered Nurse (CFRN), Flight Paramedic-Certified (FP-C), Certification in Emergency Nursing (CEN), Critical Care Registered Nurse (CCRN), & Certified Transport Registered Nurse (CTRN). In addition to being industry recognized leaders in their field, several of our lecturers are also Editorial members with the Air Medical Journal, having worked in the industry for a combined sixty years and have experience in Adult, Pediatric, Neonatal, Obstetric, Trauma, Emergency, and Critical Care. Our Instructors are also licensed by the Federal Aviation Administration (FAA) as Airplane and Helicopter rated Pilots. This book is sure to assist anyone wanting to expand their knowledge, better themselves clinically, or to prepare for any of these tough examinations. Also included are over 750 practice questions with answers and rationales, great illustrations, pneumonics, and tips of the trade. We also have a brand new 8 disc CD Audio Box Set which compliments this textbook nicely, as if you were sitting in the live class. Once purchased, a 16.5 hour continuing education certificate is available, approved by the Virginia Board of Nursing, Virginia Office of EMS, Board for Critical Care Transport Paramedic Certification (BCCTPC), and National Registry of EMT's. To take advantage of this special offer, email the Author once you order the book and review it thoroughly. A Final Exam will be emailed to you upon request, for a fee of \$20 to cover the CEU certificate and course approval number.

Editorial Review

Review

I recommend this text to anyone wanting to prepare for their CEN, CFRN, or CTRN exams, or for just honing their critical care knowledge. A MUST have for your library!!! -- --James Grove, ICU Manager

Mr. Patterson has one of THE BEST reference books out there and helps prepare you for certification as a CEN, CFRN, CTRN, or FP-C. --Amanda Munoz, Flight Nurse

This is the best Review Book I have seen thus far. I purchased this book 2 months prior to my certification exam and passed without any problems the first attempt. This was exactly what I needed to prep me for this exam, and without it, I may not have been focused enough to know where I was weak. --Alex Dominion, CCRN, CFRN

About the Author

In addition to being an Instrument rated Commercial Helicopter & Airplane Pilot, Richard is also a Certificated Flight Instructor for Helicopters as well as an Advanced & Instrument Ground Instructor. Richard has worked in Emergency Management and as a Flight Paramedic for the last 18 years. He has managed several air medical programs, has helped start two programs from the ground up, and worked as Base Supervisor for several CAMTS accredited rotor-wing programs. He is Instructor credentialed in BCLS, ACLS, PALS, ITLS, NRP, PEPP, PHTLS, ENPC, and EMT-Paramedic. Richard oversees the daily operations of Critical Care Concepts; a State approved ALS Training Agency with the Virginia Office of EMS, and has provided training programs in approximately 10 US States, as well as Canada, South America, Central America, and South Korea, in a multitude of areas. In addition to being a regular contributing writer for three air medical industry magazines, his work has also been published in various nursing and EMS journal publications. He is now on the Editorial Board with the Air medical Journal and also assisted with the new 2009 Mosby Paramedic textbook as a Chapter Reviewer.

Users Review

From reader reviews:

Yadira Singh:
