## Information Visualization, Third Edition: Perception for Design (Interactive Technologies) By Colin Ware

Most designers know that yellow text presented against a blue background reads clearly and easily, but how many can explain why, and what really are the best ways to help others and ourselves clearly see key patterns in a bunch of data? When we use software, access a website, or view business or scientific graphics, our understanding is greatly enhanced or impeded by the way the information is presented.

This book explores the art and science of why we see objects the way we do. Based on the science of perception and vision, the author presents the key principles at work for a wide range of applications--resulting in visualization of improved clarity, utility, and persuasiveness. The book offers practical guidelines that can be applied by anyone: interaction designers, graphic designers of all kinds (including web designers), data miners, and financial analysts.

- Complete update of the recognized source in industry, research, and academic for applicable guidance on information visualizing.
- Includes the latest research and state of the art information on multimedia presentation.
- More than 160 explicit design guidelines based on vision science.
- A new final chapter that explains the process of visual thinking and how visualizations help us to think about problems.
- Packed with over 400 informative full color illustrations, which are key to understanding of the subject.

## **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Michelle Johnson:**

People live in this new day of lifestyle always make an effort to and must have the free time or they will get large amount of stress from both way of life and work. So , if we ask do people have spare time, we will say absolutely of course. People is human not really a robot. Then we ask again, what kind of activity are there when the spare time coming to anyone of course your answer will probably unlimited right. Then ever try this one, reading textbooks. It can be your alternative inside spending your spare time, typically the book you have read is actually Information Visualization, Third Edition: Perception for Design (Interactive Technologies).

##### **Richard Reid:**

Your reading sixth sense will not betray anyone, why because this Information Visualization, Third Edition: Perception for Design (Interactive Technologies) publication written by well-known writer who really knows well how to make book which might be understand by anyone who all read the book. Written inside good manner for you, dripping every ideas and creating skill only for eliminate your personal hunger then you still uncertainty Information Visualization, Third Edition: Perception for Design (Interactive Technologies) as good book not only by the cover but also with the content. This is one publication that can break don't ascertain book by its include, so do you still needing another sixth sense to pick this!? Oh come on your looking at sixth sense already told you so why you have to listening to one more sixth sense.

##### **Roberta Bourland:**

As a scholar exactly feel bored for you to reading. If their teacher requested them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's spirit or real their hobby. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading really. Any students feel that reading is not important, boring and also can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important to suit your needs. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. So , this Information Visualization, Third Edition: Perception for Design (Interactive Technologies) can make you really feel more interested to read.

##### **Michelle Labat:**

What is your hobby? Have you heard this question when you got pupils? We believe that that question was

given by teacher for their students. Many kinds of hobby, Every person has different hobby. And you know that little person like reading or as reading through become their hobby. You have to know that reading is very important in addition to book as to be the factor. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You discover good news or update in relation to something by book. Different categories of books that can you decide to try be your object. One of them are these claims Information Visualization, Third Edition: Perception for Design (Interactive Technologies).
